**Subject:** Request that you listen, learn, and lead

To Administrator Pruitt:

You have said you will listen, learn, and lead. I ask you to listen to this: please do all you can to defeat those whose agendas include extreme deregulation. Those regulations are in place for a reason. The following actions will convince me that you are listening:

- Oppose Trump's extreme agenda;
- Educate yourself on climate change;
- Do not remove the work of scientists, if any is in the EPA's archives, from public access;
- Do not remove safeguards for clean air, clean water, and habitat;
- Review West Virginia where flammable gases come out of residents' water pipes (well-documented);

I am not extreme left. I voted for Richard Nixon who established what is now the EPA in 1970.

I would like a reply.[Ex. 6 - Personal Privacy]
